### P R O F E S S I O N A L P R O F I L E

---

Working as your baby's newborn care specialist I design a fluid routine for all adults who are part of Team Baby to follow. Each shift

I gladly wash all bottles and pump parts, diaper, dress, feed and swaddle baby. I come with years of experience and continue taking courses to stay up to date so I can provide the best care for your baby. Happy to share my tricks of the trade or execute your plan by being an extra pair of hands while you rest. My passion is helping others if I can help a family with their baby well then getting paid to do so is the icing on the cake!

### W O R K E X P E R I E N C E

---
